AGM + AGM Talk 'Unlocking Net Zero Live' online and in-person - 29 January 2024

The talk will start at approximately 19:00 (GMT) and the theme will be **focusing on the practical reality of the transition to a net zero future**, with invited speakers and leading climate action experts bringing to life the opportunities for our sector to lead positive change.

In-person attendance will be limited to members only. Non-members and members can [register here](#) to watch the live stream online.

30th biennial Congress Lima, 'Sustainable Solutions in Conservation: New Strategies for New Times' - 23 to 27 September 2024

The field of conservation has undoubtedly developed unequally and inequitably around the world, and it is not uncommon for countries with some of the richest heritage to be among the least developed. These discrepancies are widely recognized to have become more extreme with climate change and during the recent global pandemic, where limited resources are restricted even further. The Congress will explore the sustainable conservation strategies needed to create safe and more affordable approaches that will increase protection for the world's heritage and provide greater resilience to future world events and crises.
